- Just missed requirements
- Did not meet requirements

Without a green rating for both waste and giveaways, no event may receive an overall green score.

Overall Effort: ●

Waste Stations	●
Giveaways/Sponsors	●

Scoring and comments are based on ZGreen checklist requirements including employee knowledge, education, giveaways, printing, waste stations, bulk distribution, water, and decorations.

Comments: The Buddy Race generally does a great job of limiting giveaways, providing food in bulk, and educating attendees, but continues to struggle with waste station set-up. The race met the education requirements with announcements throughout the event. All giveaways were useable, and food was distributed in bulk or in reduced packaging. The decorations for this event are always minimal and reusable. Nice work!

Opportunities for Improvement: There were two lone trash bins at the event. ZGreen requires that all trash bins be paired with a recycle bin. It would have also been good to place a recycle bin and an additional trash bin next to the existing permanent trash bin, but this did not happen. The bins that were paired had confusing signs on them as one of the recycle bins also had a trash sign attached to it. Each year, the trash/recycle/compost situation changes for the race, so it seems a good system has yet to be found. Please let us know how else ZGreen can help make the waste stations successful.
