Comments:

Overall, this event was a success from a ZGreen perspective. Staff and volunteers were knowledgeable in greening efforts, plus only reusable items were given away. As evidence of the commitment the volunteers had to waste reduction, there were two separate occasions when ZGreen staff witnessed volunteers directing people to dispose of items in the proper bins. There were 6 tri-stations for waste and all were clearly labelled. Most of the food at the event was provided by local vendors and all cups and utensils were compostable. All decorations were reusable. There was only one sponsor that sold bottled water. All other water was distributed by water coolers with compostable cups.

Opportunities for Improvement:

This is an event that improves their efforts every year. There were no lone waste stations! A few of the vendors distributed information on non-recycled paper, so ZGreen would like to assist in making sure those vendors know before arriving how to comply with ZGreen requirements. Although there were a sufficient number of waste stations, ZGreen recommends that they are staffed throughout the event to maximize efficiency. Aspen Skating Club sold bottled water when free, bulk water was readily available. Finally, in contrast to previous years, there was no signage or announcements concerning green efforts.
